WELCOMING A NEW MEMBER TO OUR FAMILY...

Morningstar Senior Living Inc. announced a new member of the corporate family following the acquisition of Senior Solutions in December 2012.
As one of the Lehigh Valley’s oldest home care and geriatric care management businesses Senior Solutions has been serving seniors for 22 years.

Through its home care division, Caring Companions, Senior Solutions provides non-medical home care services such as private duty companions, medication reminders, light housekeeping, laundry, meal preparation, assistance with bathing and dressing, shopping and escort to appointments. In addition, Senior Solutions provides geriatric care management services, which is akin to having a personal guide who can steer

and support a person through the maze of medical and social services for seniors. These experienced geriatric care managers conduct in-home needs assessments, develop care plans, provide temporary as well as long term advocacy, monitoring, evaluations, and visits to seniors in the Lehigh Valley.

The acquisition of Senior Solutions is the culmination of a long-planned goal of Morningstar Senior Living. As we anticipate the development of the Heritage Village campus in Upper Nazareth Township we also anticipate the potential needs of that community for home care. Senior Solutions will continue to operate from its office in Allentown, assisting seniors with short term and long term care within their home to an expanded regional area.

Moravian Hall Square

WE ARE BUILT ON HALLOWED GROUND

Excerpted from remarks made by Susan Cooper Drabic, President and CEO, Morningstar Senior Living, at the 25th Anniversary Service of Thanksgiving held on January 23, 2013

As we celebrate our community's 25th anniversary, it is fascinating to look back at the history of this place.

The story of the property has a vibrant composition dating to the original Moravian settlers in colonial days. The Hall Square portion refers to an 18 acre tract of land and buildings including a large manor house built for Count Nicholas Von Zinzendorf, a German nobleman and benefactor to the Moravians who had immigrated to America. Although Zinzendorf never lived in the residence, it was used as housing first for Moravian entities, then broader housing apartments for its' full history to date.

In addition to the manor house, other buildings built by Moravians included a boys' school (and later a military academy), acreage devoted to farming, a small pond for ice skating and a "pleasure garden" for walking, relaxing and listening to musical concerts. By 1929, the military school had closed and the Moravian Church was struggling financially to maintain the property. The stock market crash and the onset of the Depression forced its sale to the Will R. Beitel Estate with the stipulation that the large Manor House become an orphanage. The Pleasure Gardens saw many uses as a recreation site; first as a planting site for interesting flora and fauna from Moravian mission travels but ceased its planting and farming use with the close of the Beitel home.

In December of 1980, a band of dreamers and visionaries – with some funds raised and some funds borrowed, re-purchased the 18 acre tract with a grand plan to build a new retirement home on a portion of the land. It would take several additional years of proposals, plans, meetings and permits to push through the largest, single development project in the history of the Borough of Nazareth.

A 3 acre portion of the land remained the Moravian Hall Square Historic District and 15 acres was earmarked for the retirement community offering continuing care residential levels for independent living, personal care and skilled health care – all under one contiguous roof.

On January 25th, 1988, the first resident, Mrs. Althea Dietrich of Bethlehem braved the snowy weather to move into her new apartment in Barony Hall. She and five other new residents were welcomed to chart a new chapter for the newly opened community of Moravian Hall Square.

The original campus setting has definitely evolved over the years – expansions of space and human resources, innovations and improvements, enhancements and awards. This tract was and still is hallowed ground. It is a place graced by the vision of founders, blessed by those who have lived and labored here and revered for the ministry to providing refuge in a spirit of community for more than 200 years.

Is FUZZY LOGIC FOR REAL?

It certainly is, according to Luisa McAllister, Morningstar Hall resident. In January 2000, as Professor Emeritus in the Department of Mathematics and Computer Science at Moravian College in Bethlehem, PA, Luisa wrote and delivered a seminar on Fuzzy Sets to an eager group of math students. The seminar was so well received by the students that they asked Luisa to consider writing a book on the subject, and so the idea was born. *Is Fuzzy Logic For Real? A Brief Introduction* was first published by Trafford Publishing in 2004. At the end of 2012, Luisa worked on updating the content of the book and it was reprinted.

Fuzzy logic is an approach that uses reasoning that is approximate rather than exact. It allows decisions to be made using incomplete and uncertain data.

Luisa moved to Moravian Hall Square in 2005. She is very active on the Resident Welcoming Committee, greeting new residents and introducing them to their neighbors. Luisa continues to write, and is currently working on her memoir. She hopes her compelling story of growing up in Rome during WWII will eventually be published. Luisa also writes for the Hall Circular, a publication for residents of Moravian Hall Square.

ON A CLOUDY DAY THE SKY WAS BRIGHT... *With Smiles!*

Moravian Hall Square Recreation and Enrichment staff recently waved one of their residents off into a cloudy sky. Moravian Hall Square resident, John Bob Herb was the recipient of the ***Wish for a Wishbone*** program. Although the sun did not make an appearance, the sky was bright with the smile on John Bob's face as he took to the air.

94-year-old John Bob spent his life flying. As a 26-year-old right waist gunner on the Eighth Air Force B-17 Flying Fortress "Raider", Staff Sergeant John R. Herb was awarded the Distinguished Flying Cross for "extraordinary achievement". This award came after he was involved in the first daylight mission over Berlin, Germany. His battalion was involved

in more than 30 heavy bombing attacks on Nazi military and industrial targets and in support of allied ground forces. Sgt. Herb is also a member of a group cited by President Franklin D. Roosevelt for its historic bombing of the Muhlembau aircraft assembly plant at Brunswick, Germany. In addition, his group received the Presidential citation for their action at Regensburg in 1943.

After leaving the service John Bob continued flying, piloting his own plane for recreation.

The flight from Braden Airpark in Easton was brief due to poor weather conditions but the thrill of being in an airplane again, with his son Robert by his side, was enough for John Bob. Back on solid ground John Bob was welcomed home by representatives from the VFW, with staff and residents singing the Air Force song, accompanied by Ralph Brodt on trumpet. Residents and staff joined John Bob for refreshments in the Galilee Dining Room where he was presented with a cake, modeled after a plane he had owned.

The ***Wish for a Wishbone*** program at Moravian Hall Square was developed by the Recreation and Enrichment staff. Each year staff identify a resident who they think might benefit from a special wish being granted.
