Heritage Park

Garden Homes and Assisted Living have been created for residents who desire amenities that accompany living in a senior living community. Our Assisted Living Apartments and Garden Homes are available in a variety of floor plans, making a familiar and comfortable atmosphere where family members and friends can visit.

*At Heritage Park, our staff are experts at providing care to seniors, and are not just doing a job, but following a calling. We are here to help you and your family find answers, solutions, and peace of mind. In fact, we become an extension of your family. See what our residents have to say about *Heritage Park*.*

80 year old Gene Volkert spent 3 months in Heritage Park's Moving Forward unit after his stroke in October of 2010. Gene participated in physical, occupational and speech therapy programs in hopes of returning to his original level of independence. "I couldn't walk at all or move my right arm". After 3 months, Gene was walking again and nearly as independent as before. "Everybody here is good to me trying to help in any way they can". Upon completion of his therapy program, he transformed one of Heritage Park's Assisted Living apartments into his very own beautiful and customized living space. Thanks to the 24 hour nursing staff in the homelike setting, Gene continued his active lifestyle for 2 more years before settling into one of Heritage Park's spacious independent living Garden Homes. "Anything you want to do, you still can." Gene's continued success is supported by having the security of knowing someone is always available to assist him should a need arise. He continues to have family and friends over regularly to visit with him. While it was a hard decision to leave the comforts of his previous home, he says he is thrilled to be here and call Heritage Park his new home "My Garden Home is just like home"!

*"Where caring people
make the difference!"*
