

# *Look who's talking about Rosegate*

Meet Augustine!

Augustine is one of the many independent and active seniors that you will find here at Rosegate. Augustine moved to Rosegate from another senior community, where she had resided for the past two years. She enjoys being active and wanted to be in a community that offered many opportunities. When she and her daughter visited Rosegate, she fell in love with our garden homes. An avid gardener, one thing that was a “must have” was a place to enjoy her flowers.

The residents at Rosegate are always encouraged to add personal touches when they move in their new home. Soon after moving in, Augustine was busy working in her flower garden in front of her home. She and her daughter both loved the look of the community and grounds. “The attention to detail and the upkeep of the community is great, and I won’t have to worry about shoveling snow this winter!”

Having been a resident here for about 9 months, Augustine is frequently seen at activities and enjoying breakfast in the dining room with her neighbors. She is also thinking about joining our New Energy Wellness fitness program. “I did the right thing by moving to Rosegate” she said.
