## An Invitation from Your Neighbors

Neighbors,

For over 50 years, Lutheran Homes of Oshkosh has served the needs of elders, provided peace of mind for their loved ones and offered meaningful, purposeful work for its employees.

In recent years, we have moved away from brick and mortar expansion plans and focused on our services and providing our residents opportunities for extraordinary experiences. Our shift in thinking led to changing our name to Miravida Living to better represent our inno-

vative practices and the life of laughter, wonder and celebration enjoyed by everyone living and working with us.

The word Miravida captures our spirit of innovation, wonder and curiosity. Mir- is a Latin root word meaning curiosity and wonder. Vit- is Latin for life. Miravida represents a way of living not defined by age or abilities but filled with possibilities and opportunities.

The Miravida Living community includes Bethel Home, Carmel Residence, Eden Meadows,

Elijah's Place, Gabriel's Villa, the Simeanna Apartments and YOU, our neighbors in Oshkosh and the surrounding communities. We invite you to explore how we're bringing forward the best of our programs and services, adding innovative approaches to our work and creating the possibilities for living your best life on your terms.

## Shifting Perspectives on Aging

Our lives are journeys of continuing opportunities – opportunities to explore, connect, innovate and be inspired. Our ability to discover and contribute to the richness of society isn't defined by age. Its only limit is our imagination.

Miravida Living is focused on creating extraordinary experiences for our elders, peace of mind for their loved ones and meaningful work for our team. Our purpose is to create moments of connection, laughter and celebration. We do this by implementing innovative programs and services throughout our campus. These programs are just the beginning:

### Green House Homes

An intimate space to encourage relationships and respond to the preferences of the elder and the household. Each Green House includes 10 private bedrooms and baths, a shared family room and a dining room.

### Namaste Care

Designed to improve the quality of life for people living with advanced dementia. A wide range of meaningful activities are offered, including hand and foot massages, personal grooming, nature videos and soothing music.

### Music and Memory

Tapping into the delightful power of

music and memories, many of our residents have individual iPods loaded with their favorite songs by their favorite artists.

### Cycling Without Age

Provides abundant opportunities for our residents to spend more time outdoors touring the community in rickshaws and developing intergenerational relationships with volunteer pilots.

### Noah's Landing

Enhances life by encouraging relationships with pets. Elders will be involved in the love and care of the dogs and cats living within our community. They will also have opportu-

nities to work with pets during therapy programs to lessen reliance on traditional equipment.

### Tabula Rasa

A partnership to reduce hospitalizations, lower health care costs and manage medication risks for our elders. Tabula Rasa helps us combat the risks associated with medication and improve patient outcomes.

We invite you to explore with us and discover the possibilities available for you and your loved ones.
